

LAWN PATROL STOPPED BY, AND WE LOVE YOUR GARDEN!

DATE:

TIME:

We toured your neighborhood, and noticed your garden has many features of an Ocean Friendly Garden which utilizes **CPR**:

☐ **C**onservation

☐ **P**ermeability

☐ **R**etention

Comments:

An Ocean Friendly Garden conserves water AND reduces polluted runoff—helping to reduce flooding and keep pollution out of our creeks and coastal waters. It also gives you a beautiful garden full of new wildlife because it uses native plants. By contouring the land, adding dry creeks or seasonal ponds, and using permeable solutions for our walkways and driveways, runoff can soak into the soil to recharge local aquifers.

**WE CONDUCT NEIGHBORHOOD
WALKS, CLASSES, WORKSHOPS,
AND WORKDAYS TO EDUCATE,
TRAIN AND ASSIST PEOPLE.**

UPCOMING PROGRAM EVENTS

Learn how to implement your Own Ocean Friendly Garden!

DATE: LAWN PATROL

Neighborhood walks, starting at an existing Ocean Friendly Garden (OFG), to help people identify OFGs & to offer help to those who almost have an OFG.

DATE: BASICS CLASS

Classroom-style 3 hour presentation on the fundamentals of creating an OFG, led by a sustainable landscaping expert.

DATE: HANDS-ON WORKSHOP

In-class and in-the-field training in how to create an OFG.

DATE: GARDEN ASSISTANCE PROGRAM WORKDAY:

Surfrider volunteers and others show up to help Class attendees that do their "homework" - create a design, gather materials, invite neighbors, provide some food, willing to pay it forward.

To see if you qualify for a yard sign from Surfrider Foundation, or to or get involved with our program, visit us online:
www.oceanfriendlygardens.org

SPREAD THE WORD, VOLUNTEER WITH THE OFG TEAM, AND HAVE FUN!

OCEAN FRIENDLY GARDENS AND LAWN PATROL ARE PROGRAMS CONCEIVED, DEVELOPED, AND ADMINISTERED BY THE SURFRIDER FOUNDATION
